

## LPC to Invest in New Large Format Printing Press

### NEW MAN ROLAND 73" PRESS WILL INCREASE CAPACITY AND CAPABILITY

Lewisburg, Tennessee, December 1, 2008 --

LPC has enhanced its large format division with the purchase of a new 73" Man Roland 900, XXL. This purchase will enable the organization to continue providing the highest level of quality at a competitive price.

"The purchase of the new press further demonstrates LPC's commitment to our existing customers while opening new doors with prospective customers outside of our current marketplace." said Hale Hawkins, IV, LPC CEO.

LPC customers can expect additional capability and capacity, including:

- Increased print sheet maximum size of 51.18" x 72.83"
- Sheet Minimum: 27.56" x 45.28"
- Image Max: 50.79" x 72.83"
- Plate Size: 54.33" x 73.23"
- Stock Thickness: .0025" x .00236"

Installation for the Man Roland is scheduled to begin in early January and will be in full operation by April 30, 2009. Additionally, installation of a new 90" Seybold cutter will be in full operation in conjunction with the new 73" Man Roland.

#### **About LPC**

Founded in 1898, LPC now in its fourth generation of family ownership. The company is an industry leader with its core business in high quality specialty printing that includes large and small format litho, commercial, flexo and digital printing.

LPC proudly serves local, national and international clientele from the corrugated packaging, point of purchase, retail, manufacturing, food processing, service, and educational markets.
